Subject: Measured Progress (NECAP) assessments & HB1432

Good morning.

I believe we were all forwarded the 2/19 letter (attached) from Measured Progress to Commissioner Barry. I had read that Measured Progress was awarded a contract to develop 2015 assessments for Oklahoma. Since this seemed to contradict the letter to Commissioner Barry, I contacted Measured Progress for clarification. I have attached their response. There are alternatives to SBAC if we vote OTP on 1432 or an amended version. In addition, there is the use of the PSAT as requested by Londonderry and under consideration by DOE.

Thanks.

Glenn
